Cooperation and coordination

Review of the related projects

- ➢ **Coordination**

- ➢ **Synergy**

- ➢ **Mandate and requirements**

NSI → EUROSTAT → EU4ENERGY → IEA → UNSD (UNECE, FAO, UNDP) → IEF (OPEC, GFEC …)
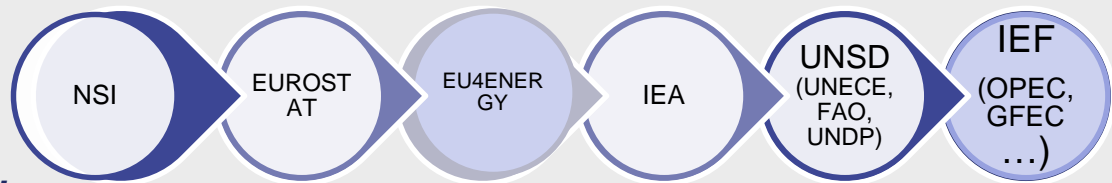

- ▪**Training programme**

  1. **Assessment of the current status and needs**

  2. **Complementary plans for capacity building**

  3. **Coordination and cooperation**

- ***Type of training (for specialists or for heterogeneous attendants)***

- ***Format of training adjusted to the substance and to the attendance***

  1. Classroom (IEA, ESWG, dedicated JODI workshop)

  2. At the location (usually most cost-effective option)

  3. **Sharing instructions, manuals, interpretations**,

  4. Platform for peer communication

Trainings

- ***Objectives - Reasonable and clearly communicated***

  1. capacity building / know-how

  2. administrative upgrade - institutional framework

  3. data collection, processing, compilation, dissemination,

  4. quality assurance

- ***Training material - Depending on the participants***

  1. Data sets and templates - before session

  2. Printouts of documents available on request

  3. All documents published on web

The path and the objective and the

Top expert for trainers!!!

Expert institutions
- EUROSTAT,
- IEA,
- UNSD,
- IEF….

Experience sharing / peer communication   encouraged

Data providers
- businesses,
- Administration
- Associations, agencies…

Institutional data producers
- NSI,
- other

More coordination & harmonization

➢ *Less reporting burden*

➢ *More data of relevance*

Data users
- policy makers,
- researchers,
- business
