

True Benefit of Data Transparency in Support of Sustainable Energy Future

Agenda

Day One: Sunday 20 October 2019

- 08:30 Registration and Networking at **Sky Executive Resort | New Cairo**
- 09:00 **Welcome Address**
HE Tarek El-Molla, Minister of Petroleum and Mineral Resources, Arab Republic of Egypt
- 09:10 **Opening Address**
HE Sun Xiansheng, Secretary General, International Energy Forum
- 09:20 **Opening Remarks by JODI Partner Organisations**
JODI Partners
- 09:35 **Keynote Speech**
- 09:50-10:00 **Group Photo**
- 10:00-11:30 **Session 1**
Outcomes from the JODI 5-Year Action Plan toward 2020 – Success Stories and Improvement Opportunities
- Key Questions**
- What are improvements in quality, comprehensiveness and timeliness of JODI data?
 - How effective have our capacity building efforts been and how could they be improved?
 - How effective has our outreach strategy been and how could it be improved?
 - How has the political and public support for JODI and data transparency evolved?
 - What kind of efforts has the Initiative made to improve energy data transparency beyond oil and gas?

Presentations by Experts, Followed by Q&A and Open Discussion

Moderator:

20-21 October 2019
Cairo, Egypt

Hosted by The Egyptian Ministry of Petroleum and Mineral Resources
with the support of Joint Organisations Data Initiative (JODI) partners

www.jodidata.org

Panellists from:
JODI Partners
JODI data users (oil and gas)
National administrations

11:30-12:00 Coffee Break and Networking

12:00-13:30 **Session 2**

Redefining the Value of the Energy Data Transparency Initiative – JODI

Key Questions

- Recognised as key benchmark, how do JODI and the world databases contribute to market analysis today?
- How do data users cope with variations in data for apparently similar variables derived from different sources?
- How would government/administrative data benefit from cutting-edge techniques (including AI, big data, satellite images) How does Industry use these techniques?
- What is the impact of energy data on policy planning (i.e. energy security, investment, fiscal frameworks) for national administrations?
- How do policy makers view the status of energy data transparency in an era of transition toward sustainable energy for all?
- How have LNG trading strategies evolved and what are their data needs today?

Presentations by Experts, Followed by Q&A and Open Discussion

Moderator:

Panellists from:
JODI Oil data users/analysts
JODI Gas data users/analysts
Agencies monitoring energy commodity trading
National administrations involving in energy policy making

13:30-15:00 Lunch and Networking

15:00-16:30 **Session 3**

Benefits of the JODI Cooperation Mechanism across the Energy Data Supply Chain

Key Questions

- What kind of influence has JODI had on national administrations in their efforts to improve data quality?
- How does energy data transparency contribute to energy security?
- How can JODI and national administrations facilitate energy companies' compliance with data transparency commitments/obligations?

20-21 October 2019
Cairo, Egypt

Hosted by The Egyptian Ministry of Petroleum and Mineral Resources
with the support of Joint Organisations Data Initiative (JODI) partners

www.jodidata.org

- How can JODI further facilitate bilateral and multi-lateral cooperation among and within countries towards increased energy data transparency?
- How adequate are definition and reporting harmonisation efforts through JODI?
- How do international organisations benefit from international cooperation frameworks such as JODI and how can JODI further enhance data transparency through cooperation with other frameworks such as InterEnerStat and Oslo City Group?

Presentations by Experts, Followed by Q&A and Open Discussion

Moderator:

Speakers from:

JODI Partners

JODI data users (oil and gas)

National administrations

16:30-17:00 Coffee Break and Networking

17:00-18:30 **Session 4**

Enhancing the Benefits of JODI Capacity Building

Key Questions

- How can JODI further improve data availability and quality in emerging economies and how can JODI support the need for the establishment of institutional and legal frameworks?
- Acknowledging resource limitations faced by national administrations, how can JODI highlight, from a policy making perspective, the advantages of different data collection activities.
- How can JODI improve capacity building materials for data suppliers and data users?
- How far has JODI cooperated to benefit from academia?
- What can national administration learn from commercial entities who gather and compile energy data.

Presentations by Experts, Followed by Q&A and Open Discussion

Moderator:

Panellists from:

JODI Partners

National administrations

Academics

Think-Tank

20-21 October 2019

Cairo, Egypt

18:30

Hosted by The Egyptian Ministry of Petroleum and Mineral Resources
with the support of Joint Organisations Data Initiative (JODI) partners

www.jodidata.org

Energy Data Transparency Exhibition / Reception Capitalising on a Wealth of Data

The Energy Data Transparency Reception/Exhibition is designed to raise awareness of the wealth of data made available to the public through the data dissemination efforts of national administrations, international organisations and commercial data redistribution agencies. The event will provide a unique opportunity for dynamic exchange of ideas among data providers, users, and the suppliers of analytical tools and services from both government and industry on how to share energy data.

Day Two: Monday 21 October 2019

09:30-11:00 **Session 5**

Strategies and Benefits for Enhanced Visibility of Energy Data Transparency

Key Questions

- To what extent have new JODI data dissemination tools been effective? What are the views of data JODI world databases redistributors after two years?
- How can the needs and benefits of energy data transparency be more effectively communicated?
- How can JODI further improve the confidence of data users on the data quality of JODI data?
- How can JODI improve granularity and data context notes to improve transparency and its value?
- How can the uniqueness of the JODI data reporting mechanism be emphasised?
- How can efforts of data providers be effectively recognised?

Presentations by Experts, Followed by Q&A and Open Discussion

Moderator:

Panellists from:

JODI Partners

National administrations

Media

Data redistribution agencies

11:00-11:30 Coffee Break and Networking

11:30-13:00 **Session 6**

Maximise the Benefits of Energy Data Transparency – Beyond the Current JODI Framework

20-21 October 2019
Cairo, Egypt

Hosted by The Egyptian Ministry of Petroleum and Mineral Resources
with the support of Joint Organisations Data Initiative (JODI) partners

www.jodidata.org

Key Questions

- How can JODI cooperate with other ongoing transparency activities to achieve greater energy data transparency?
- How can JODI capitalise on its experience in the advancement of oil and natural gas data transparency to go beyond?
- In what key areas and with which organisations/institutions can JODI combine efforts to further enhance energy data transparency?
- What would be the advantages of expanding JODI coverage to other energy source and uses.

Presentations by Experts, Followed by Q&A and Open Discussion

Moderator:

Speakers:

JODI Partners
JODI data users (oil and gas)
National administrations

13:00-14:30 Lunch and Networking

14:30-16:00 **Session 7**

Closing Session – JODI Actions toward 2025

Key Questions

- What are the new JODI Action items toward 2025?
- Will JODI always be needed and why?

Moderator:

Fuad A. Al-Zayer, Coordinator of Energy Data Transparency – JODI, IEF

Panellists from:

JODI Partners

16:00-16:30 **Conference Concluding Remarks**
