2nd Gas Data Transparency Conference

MOVING "JODI-Gas" FORWARD

Rinaldi Adam

Centre for Data and Information Service (**Pusdatin**)

The Ministry of Energy and Mineral Resources
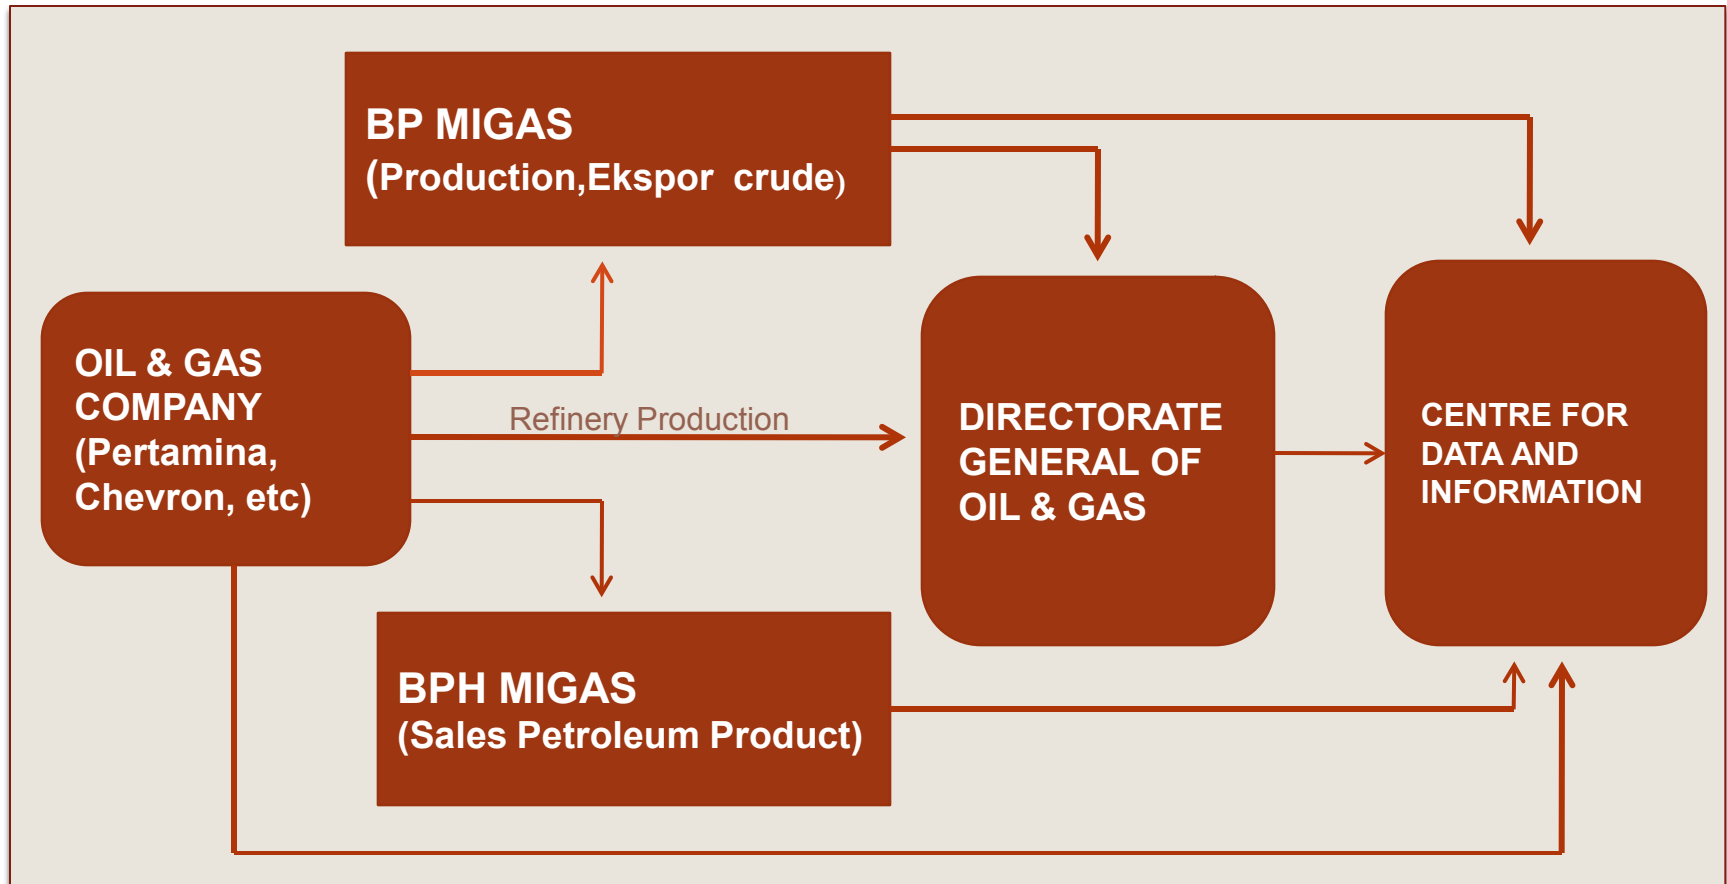

The Republic of Indonesia

Doha, Qatar, May 23rd, 2012

THE QUESTIONS

1. What Lesson can JODI-Gas learn from JODI-Oil?
2. What can the partner organization do to boost the development of the initiative?
3. How can this initiative become a permanent natural gas data collection mechanism?
4. Establishing priorities and timelines
5. Next step

STARTING POINT ON DATA MANAGEMENT

1. All information have to be available to all citizen of Indonesia unless restricted by the law (Act number 14/2008 on Information)

   ➢ However, one or other ways the information through publication will reach customers outside Indonesia

2. The regulation does not differentiate data from information, however considering that information in derived from data, this leads to regulatings binds data.

3. Eventhough all information have to be made open to citizen. However, it is not standing by itself. To really comprehend this act, we have to refer and obey all the related acts and downward regulation which emanates from this act.

4. The GoI follows/binds on international (inter-govermental) cooperation such as APEC

INDONESIA'S DATA FLOW FRAMEWORKS

DGOG: Directorate General of Oil and Gas
BP MIGAS : Executive Agency for Upstream Oil & Gas Activity.
BPH MIGAS: Executive Agency for Downstream Oil & Gas Activity.

LEARNING LEARNS FROM JODI-OIL

PARAMETERS	CONDITION
Timeliness	1. Various conditions depend on Other GoI Bodies, ie. DGOG, BP-MIGAS dan BPH-MIGAS
Sustainability	2. Pusdatin receives downstream data from Pertamina dan PGN
Completeness	3. Lack of Data Utilization on Decision Making Level
Quality	4. Lack of regulation on Operational Level
Confidentiality	Regulation is in place

PROPOSE PRIORITIES AND TIMELINES

PRIORITITY	TIMELINE	AGENT

1. Running Capacity Building:
   a. Harmonization presepsion of definition
   b. Data Management
   c. Data Analysis
	2012-2013	PUSDATIN + IEF/Organization Partners

2. Operational level regulation preparation	2013	PUSDATIN

NEXT STEP:

PUSDATIN is going to start internal evaluation and coordination to implement the priorities (June 2012)

MATUR NUWUN
-TERIMA KASIH-

CAPACITY BUILDING

In-house JODI workshop in Indonesia 2010 (Pusdatin , APEC, and Data Sources)
