Latin America: Bogota (August 2010)

JODI Internships

Level: **Country**. Number of participants: **2-4**

Past Internships:

India, Vietnam, Azerbaijan, Myanmar

Knowledge dissemination and transfer

JODI Training Programme

- Help participating countries to report better quality data through the JodiOil questionnaire.
- Offer participants in charge of oil statistics from governments an occasion to clarify Jodi definitions and to learn more about data quality assessment techniques.
- Offer also a good opportunity to share their best practices on data validation or to discuss issues on data collection.

Users on the driving seat

Phase 1

Pushed by JODI Oil Partner Organisations

Pulled by JODI Oil Data Users

Phase 2

JODI Main Achievements

- **Helped raising political awareness on the importance of oil data transparency**
- **Helped establishing a free sound oil data collection system at the global level**
- **Improved attitude toward data confidentiality**
- **Created a momentum for more harmonization and cooperation**
- **Strengthened producer-consumer dialogue**
