

# 1 What is Jodi ?

**The Joint Organisations Data Initiative (JODI)** is a concrete outcome of the global energy dialogue. IEF Energy Ministers recognize that the exchange and free dissemination of energy market data helps to mitigate uncertainty by improving market transparency and facilitating well-informed decision-making that instils investor confidence, supports market stability and strengthens energy security.

The Initiative, coordinated by the IEF since 2005, relies on the combined efforts of the eight JODI partner organisations (APEC, EUROSTAT, GECF, IEA, OLADE, OPEC, and UNSD), and more than 100 national administrations, and industry stakeholders to gather, verify and transmit the official data that populates JODI's two public databases JODI-Oil and JODI-Gas with key monthly supply and demand indicators.

JODI's databases are the public face of the Initiative, but they are only the tip of the ice-berg. The capacity building workshops delivered by JODI partners around the globe, provide training to the statisticians and other experts who are the backbone of the initiative, and facilitate information sharing and study of best practice. Partners also engage with the global JODI data-user community through regular

regional meetings which encourage the user feedback that is the essence of JODI.

The initiative is unique in its ability to harness cooperation along the length of the supply chain and across government, industry, organisational and national boundaries.

# 2 The JODI Data Supply Chain

Hundreds of Energy Companies feed their data to...

... more than 100 national administrations which then submit their data to...

... the 7 JODI Partners who deliver their findings to...

... the International Energy Forum which consolidates their data...

... and populates the JODI WDB available at [www.jodidata.org](http://www.jodidata.org)

... which is used by a global audience, including market analysts, traders, investors, and government officials

# 3 Capacity Building

481

The number of **professionals trained** through the JODI Capacity Building Programme

15

**Training Workshops** delivered by JODI Partners around the globe since 2006

7800

JODI Oil and Gas **Manual** downloads since 2011

# 4 JODI World Database

WDB

962,000

The number of data points in the JODI World Databases and...

each...

data point represents the monthly national total energy transaction of a single product (ie Russian Crude Oil Exports)

10397

Average monthly page visits (sessions) to JODI websites during 2016

111%

Increase in page visits from 2014 - 2016

IEF Ministerial meetings

12

International JODI Conferences

100's

...of presentations by IEF SGs and JODI partners

41

JODI Inter Secretariat coordination meetings

## Ministerial Support

"The contributions of JODI-Oil and JODI-Gas (...) can be strengthened through greater visibility and enhanced access of JODI data, including the preliminary release of information on stocks and greater transparency regarding policy plans. Expansion of the JODI database to cover other energy sources is a welcome objective that requires further exploration to ensure that adequate funding and processes are in place and that JODI-Oil and JODI-Gas continue to improve, and eventually lead to an inclusive JODI-Energy data collaboration."

**Concluding Statement by Host Country Russia and Co-Host Country Iraq, IEF14, Moscow, May 2014**

"We believe energy market transparency is a critical prerequisite for energy security and encouraging investment. To promote market transparency and efficiency, we commit to further strengthen the Joint Organisations Data Initiative (JODI) by encouraging and facilitating the collection and dissemination of high quality energy data, the visibility of the initiative and the timeliness, completeness and reliability of JODI data submissions."

**G20 Energy Ministerial Meeting, Beijing, June 2016**

## News Coverage

"World oil demand surged in the first six months of 2015 compared with the same period in 2014, according to national estimates submitted to the JODI."

**Global oil demand growing at fastest pace for five years, Reuters, 1 Oct 2015, John Kemp**

## Data User View

"In terms of the history of oil market analysis, there is before JODI and there is after JODI"

**Joel Couse, VP Market Analysis for Trading & Shipping, TOTAL SA**
