**Assessing results achieved over 10 years of JODI**

- What are the main hurdles which prevent JODI from fulfilling its objective?
- What solutions can partner organisations take individually and/or collectively to remove those hurdles?
- How to respond better to data users' expectations?
- How to solve the confidentiality problem, especially with regard to stocks reporting?
- Is there an optimal arbitrage between data reliability and timeliness, completeness and sustainability?
- Is our capacity building effort effective and relevant for further improvement of JODI?
- What could be done to address resources limitation in organisations and countries?

**JODI action plan towards IEF14 (Moscow 2014):**

- New reporting architecture with the extended JODI questionnaire
- Responding to Ministers call on expanding JODI beyond oil; Constraints and Challenges
  - > Expanding JODI to natural gas
  - > Expanding JODI to upstream and downstream capacities and expansion plans.

**17:50-18:00 Photo Session-Heads of Organisations**

**Press Release** (*Input from Heads of JODI organisations to IEF Ministers*)
