Ministerial Support

"The contributions of JODI-Oil and JODI-Gas (...) can be strengthened through greater visibility and enhanced access of JODI data, including the preliminary release of information on stocks and greater transparency regarding policy plans. Expansion of the JODI database to cover other energy sources is a welcome objective that requires further exploration to ensure that adequate funding and processes are in place and that JODI-Oil and JODI-Gas continue to improve, and eventually lead to an inclusive JODI-Energy data collaboration."

Concluding Statement by Host Country Russia and Co-Host Country Iraq, IEF14, Moscow, May 2014

"We believe energy market transparency is a critical prerequisite for energy security and encouraging investment. To promote market transparency and efficiency, we commit to further strengthen the Joint Organisations Data Initiative (JODI) by encouraging and facilitating the collection and dissemination of high quality energy data, the visibility of the initiative and the timeliness, completeness and reliability of JODI data submissions."
